R. FULTON CUTTING IS OU

CITIZENS UNION CHAIRMAN RE-TIRES FROM POLITICS.

Going to Devote Himself to Prometing Bureau of Municipal Research-Citizens Union Would Like to Get W. J. Schleffelin for Its New Chairman,

R. Fulton Cutting resigned last night the chairmanship of the Citizens Union. His resignation was considered at a special meeting of the city committee, but was not formally acted on for the reason that the committee was not prepared to name his successor. The resignation will be accepted and the new chairman will be appointed on December 28.

The fact that Mr. Cutting wished to resign was known to only a few members of the executive committee, and some of the city committeemen asked Mr. Cutting to reconsider. Mr. Cutting said, however, that as he wished to give his lieved of the chairmanship of the union. In his letter he said:

"It is with profound regret that I find myself compelled to resign as a member of the Citizens Union. I am one of the trustees of the Bureau of Municipal Reand my obligations to it are of such a nature that I find it imperative to retire John's. definitely from all political activity. ROOSEVELT HUNTING PERMIT. State Region Made for 1910.

Special Cable Despatch to THE SUN BRUSSELS, Dec. 14.—President Roose velt has applied to the Minister of the Colonies for permission to hunt in the Congo Independent State in 1910 readily granted.

As the President is to begin his experiences in East Africa, it is not likely hat he can reach the Congo for several months. This is no doubt the reason for securing a permit for that region for the year after next.

ROOSEVELT'S DANGER IN AFRICA

Not From Tigers or Other Wild Beasts,

but From Poisonous Insects. WASHINGTON, Dec. 14.—President Roosegreatest danger that will threaten him in Africa will not be from tigers, elephants or other beasts, but from insects. There are in the African jungles, said S. O. Thompson of Richmond, Ind., who called on the President this morning, several kinds of poisonous bugs and flying insects more to be dreaded than snalles or wild peasts. The bite of some of these insects, Mr. Thompson told the President, means blood poisoning and probably death. No man, he said, should think of sleeping in Africa unless under a mosquito bar

Mr. Roosevelt asked his visitor to set these things down in writing so that he might examine them at his leisure, and Ir. Thompson, who says he has had much experience in Africa, readily assented

Announcement. Henry H. Cammann, the comptroller of Trinity Corporation, said last night after the longest meeting the vestrymen of Trinity had held for years that he would issue a statement in a few days concerning the decision of the corporation as to the future of St. John's Chapel in Varick street. Mr. Cammann would not say whether a decision was reached at the meeting last night and the other vestrymen referred all inquirers to the

comptroller The vestrymen, among whom were Stuyvesant Fish, Col. William Jay and Edmund D. Randolph, discussed old St. John's and other business from 8:30 until after midnight. A majority of the vestrymen are said to be in favor of discontinuing worship at St. John's and tearing down the old chapel. The congregation of St. John's has protested, Herman Gustow, John Burke and Lewis W. Smith, among others, declaring that St. John's is in a better and more flourishing condition this year than for many years past. They do not want to be transferred to time to the developing of the Bureau of St. Luke's, at Hudson and Grove streets. The company replied after a meeting addressing the answer to all its employees. It characterizes the demands as preposterous and points to the "closed shop' and arbitration clauses as examples of what it terms the unfairness of the union.

P. J. Shea, second vice-president of other cities. Dr. E. R. L. Gould, who was the union, and Hugh Frayne of the American Federation of Labor said to-night that the union is willing to submit the demands to arbitration. "If the company persists in its refusal," said Mr. Shea tonight, "the trolley cars will be run by strikebreakers or will not run at all.

DEPARTMENTHEADS TO FALL?

RUMOR HAS CROWELL, SPOONER AND BERRY ON THE LIST.

Indisposition to Economize Manifested by Some Officials With Whom the Mayor Has Labored-Fire Commissioner Hayes Ill and Likely to Resign.

Rumors that the Mayor will cut off some of the heads of departments on the first of the year are very persistent in the City Hall. Mayor McClellan himself refuses to say whether or not he is contemplating any changes. The rumors are that Street Cleaning Commissioner Foster Crowell, Dock Commissioner Allen N. Spooner and Park Commissioner Joseph I. Berry of The Bronx are going. Last Friday when Commissioner Crowell, who had used up his salary appropriation, wanted \$60,000 more and got President Darlington of the Health Board to tell the Board of Estimate that the health of the city required the expenditure Mayor McClellan made the proviso that Dr. Darlington should certify all salaries for which the \$60,000 was used, a step that practically put Dr. Darlington at the head of the Street Cleaning Department.

Running employment bureaus for Tammany Hall is in brief the rumored complaint against the others. One of Mayor McClellan's colleagues in the municipal government said yesterday:

"There is no doubt that Mayor McClellan will make some changes next January, but it is only fair to him to say that such changes will not be made because of any political motive, but because he thinks that ome of the heads of the departments have shown a disposition to work against him rather than for him. The Mayor has been criticised because of the yearly increases of the budget since he has been in office but if the figures are looked into closely t will be found that those increases are brought about by the normal growth of the city. At the last budget hearings the Mayor pruned down the appropriations granted to the various departments to the lowest possible penny and appealed to the department heads to help him all they possibly could in keeping down the budget. But some of those Commissioners seemed rather inclined to embarrass him than to aid him and I shouldn't be surprised if the report that the Mayor is to remove some of them shortly is true.

The probability is that Fire Commissioner Micholas J. Hayes will retire before the end of the year. His health is bad and for some time he has been in Mount Clemens, Mich. Should he resign it is at Marseilles. believed that Commissioner of Correction John V. Coggey will be his successor.

Three Have the Whole First Cabin. The Holland-America steamship Stat dam, which sails to-day for Boulo and Rotterdam, has only three first or passengers, an unusually small number for so good a twin screw ship even in the winter season. But she has forty-two travellers in her second cabin. The un-crowded trio in the first are Urban Cronin, Harry H. Morgan and Mr. Kalkar.
